Schedule 6.1

1. Debtor believes that contracts Debtor entered into with the California Power Exchange are not "executory" within the meaning of 11 U.S.C. section 365 and accordingly should not be subject to assumption or rejection in the respective cases of Debtor and the California Power Exchange. However, should the Court determine that such contracts are "executory" within the meaning of 11 U.S.C. section 365, Debtor has scheduled such contracts to be rejected on Schedule 6.1, Schedule of Executory Contracts and Unexpired Leases to be Rejected.
2. If the counterparty to any contract listed is a debtor in a pending bankruptcy case prior to the Effective Date of the Plan, it is the intention of the Debtor to seek relief in such bankruptcy case, to the extent it is necessary to effectuate the treatment of such contract as shown on this Schedule, prior to the Effective Date of the Plan.
3. The contract with the City of Redding was rejected pursuant to an order of the Court entered on December 27, 2002.

Pacific Gas and Electric Company
Notes to Schedule 11.16

1. Due to the nature of the claims contained in this Schedule 11.18, the amounts of the listed claims are unknown. This Schedule contains, among other information, potential material claims that PG&E may have against third parties. This list does not include all claims of PG&E. PG&E reserves its right to assert additional claims in the future. In addition, PG&E is involved in numerous regulatory proceedings, including but not limited to those at the California Public Utilities Commission and the Federal Energy Regulatory Commission, which are a matter of public record. Some, but not all, of those proceedings have been included in this filing.
2. The following notes apply to Environmental Claims:
 - a. Insurance Claims: PG&E has affirmative environmental insurance coverage claims for defense and indemnity obligations under insurance policies with several insurance carriers, including claims pending in *Pacific Gas and Electric Company v. Lexington Insurance Company, et.al.*, Case No. 948209 (Superior Court of California for the City and County of San Francisco). The claim with each insurance carrier involves a large number of individual claims by PG&E against the insurance carrier. Each insurance carrier is listed once in the accompanying Schedule, since a final resolution in each claim involves a single settlement encompassing all claims against the carrier.
 - b. Claims Under Executory Contracts: There may be affirmative claims against others for environmental remediation and indemnity obligations, associated with PG&E-owned and non-owned property, performed in accordance with orders and consent decrees issued by governmental agencies, and with settlement and cost sharing agreements, all of which are considered executory contracts. This Schedule is not an inclusive list of all such claims; instead, the parties to the executory contracts are included in the list of executory contracts retained by PG&E.
 - c. Multiple-Party Sites and Historic Manufactured Gas Plant Sites:
 - i) **Multiple-Party Sites**: Throughout its years of operation, PG&E disposed of hazardous substances at a number of hazardous waste disposal sites; including, but not limited to, those sites listed below. For these sites, PG&E is one of many disposers, and PG&E considers each of the other disposers as a co-debtor for remedial clean-up costs.

Arcady Landfill	Industrial Waste Processing
Brighton Oil (Rancho Cordova)	Omega Chemical Corporation
Casmalia Resources	Patterson
Geothermal Industries	Purity Oil
Gibson Oil (Bakersfield)	Rosen's Electrical Equipment Company
GBF/Pittsburg Landfill	
 - ii) **Historic Manufactured Gas Plant Sites**: PG&E is involved in over 75 historic manufactured gas plant ("MGP") sites, located throughout PG&E's service territory (PG&E has not listed each site in this Schedule). Many of these properties may be subject to remediation under the direction of environmental agencies or are the subject of third party claims. For these sites, PG&E may have claims against other parties for a share of the remedial clean-up costs.

PG&E asserts there is the potential, at some point in time in the future, that it could have a claim against one or more of the other parties associated with the sites covered by (c)(i) and (c)(ii) above; thus each of those other parties would be listed in this Schedule as a party against whom PG&E has a claim. However, because the number of parties associated with all of these sites can be quite voluminous (in several cases over 10,000 entries), PG&E is not listing each party here. Parties who have entered into an executory contract related to one of these sites are discussed in Paragraph 2 above and to the extent practical, parties considered co-debtors with respect to each site are listed, along with the appropriate site location, in PG&E's Schedule H to the Amended and Restated Schedules filed with the Bankruptcy Court on July 2, 2001, as amended.
